ARTS—ANCIENT AND MODERN.

We have in the world a set of mob-sycophants who proclaim that the people of their own day and province are the greatest of all people in art, taste, religion, manners, government, and all else that distinguishes men from animals; that compared with them, the ancients were "ugly in their lives," and still uglier as mummies, and of no present account but to contrast the greatness of the people who are expected to pay for such nauseous laudation. But we have also others who give credit to the ancients for something more than the mob-sycophants put into their accounts. Among these is the *Practical Mechanic's Journal*, which, in an introduction to an article on recent improvements in contractor's plant, says:

"To modern men, that is to say, to the most civilized and learned races of man, and within the last two centuries only, belongs the power and the glory of having conferred *motion* upon insensate matter, and, with motion, obtained command of the *force* that produces it—of force detached in fragments from the great cosmical machine in directly and by the agency of pure intellect, as distinguished from that compelled by the action of the will from our own muscles or from those of others. Apart from this, there is much less to exalt the most modern over the most ancient structural engineering than is commonly supposed. Two words, in fact, comprise the germ of all modern engineering improvements. Iron and coal together have given us steam power, and every advance that we hourly make in the many-sided improvements and applications of the latter, will be found preceded by advances in the manufacture and treatment of iron, or by making more plentiful or by the economizing of fuel. At this moment who shall set limits to or appraise the value of what steel in every shape—in masses of any size and as cheap as iron—and liquid coal fuel have in store for the coming generation? In enormous magnitude, in grandeur of conception, and all that makes majesty and perfection in execution, numbers of the oldest monuments of the world contrast favorably with our latest and greatest engineering works. The tanks of India and Ceylon, with their gigantic *bunds*, though so old that the very names of the men who planned and constructed them are often unknown, stand advantageously in comparison with the greatest reservoirs made in Europe. Before the Heraclidan blood was known in Greece, its inhabitants had drained a great lake district by a tunnel in limestone, the ruins of which are no mean competitor to that of Mont Cenis. The cyclopean masonry of Holyhead or Portland, in its huge, uncouth and grand fifteen ton blocks, is excelled by that which sits unmoved by earthquake, and from which the tool marks have not been removed by thirty centuries, in the walls of Baalbec and Tadmor. The obelisks and lintels of Luxor, of Karnak, of Phibæ, nay of our own Stonehenge, are of blocks to quarry and elevate which might make a reputation even now. At Syracuse, in Greece, in Egypt, we find the quarries out of which such blocks have come, wrought with as much or more skill, and upon as vast a scale as those of Caen, Portland or Peterhead. What among the earthworks of masonry of our own railways, or of the still more remarkable works of Europe or of India, can we point to in magnitude more impressive than the Birs Nimrood, or the Pyramids of Thebes, or even than the mighty raths of Northern Europe, or the terraced mounds of Mexico, Texas, and Central America? And to pass from mere size to evidence of skill, may not the tombs and minars of India, the rock sculptured cave of Elephanta, the stately walls of Persepolis, the domed treasury of Atreus; or, in far later days, the aqueducts and bridges of the Romans—Alcantara, the Pont du Gard, the mole of Pozzuoli, the minster towers and spires of medieval Europe—match the best that we have done to-day? Of taste, the æsthetic element of skill, we need say nothing. The ancients are our confessed masters, without the necessity of glass domes and the 'Board of Trade' order to prove that we cannot even imitate them."

ROBBERY AT OMEGA.—The store of George Roberts, at Omega, says the *Transcript*, was entered on Sunday night and robbed of goods, consisting of clothing, boots, etc., valued at $500. The store is of brick, having iron doors. The thieves effected an entrance by digging away the brick work near the door in the rear of the building. When our informant left no clue had been found of the perpetrators of the deed.

ROBBERIES.—The Virginia *Trespass*, of the 2d instant, gives the following as one night's record of robberies in that city, and it didn't appear to be a good night for robbing either:

Last night and this morning was a prolific season for the thieves who infest this city, Gold Hill and vicinity. About 1 o'clock this morning the Bank Exchange saloon of Leeke and Clawson, at Gold Hill, was entered by means of false keys, and robbed of $50 in coin in a purse behind the bar, and a quantity of copper and silver coin in a cabinet. Mr. Leeke informs us that it has been his custom to leave about $50 in a purse behind the bar—concealed in some place—for the use of the person taking the morning watch. He thinks that the thief or thieves watched him last night, and saw the place in which he placed the coin; also that they were attracted by the appearance of a large lot of copper coins which were placed in the cabinet of curiosities, and which, lately cleaned by acid, were bright and resembled Spanish doubloons. The purse was taken, all of the huge copper coins raked up, together with about $15 in old silver coins, but a number of South American coins were untouched. Uncle Leeke insists that the thieves (from the selections made) must have been Copperheads.

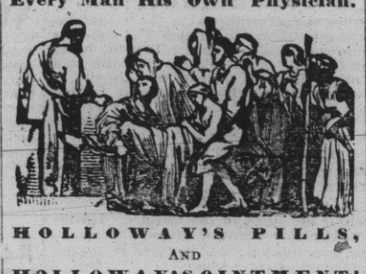
At about 10 o'clock last night, the periodical store of Fred. Bœgle, at the Post Office, was entered, and two purses abstracted from the money drawer. One contained $27 in coin, the money of the Visginia Athletic Club, of which Bœgle is Secretary; the other containing $11.50 of private property. "Young George," who usually sleeps in the place, was absent therefrom about half an hour, when the robbery was perpetrated.

A man named Charles Woodhill, coming from Washoe over the south grade, wrs stopped last night by three footpads, who obtained for their trouble six bits.

The ladies are going in clubs Poor dears, how little they think how they are "putting their little tootsies into it" by trying to place themselves on a club-footing.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.



HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

Copy of the Report of the Committee of Awards a the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets,

TO 108 MONTGOMERY STREET, Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

A CARD FROM THE

AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this; European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancree, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

APT TO BE MISTAKEN.

The Humboldt *Register* of the 2nd instant in an article on the Presidential election, and the probable votes of the different States, and in this calculation places the States of Pennsylvania, Ohio, New York, California, Nevada and West Virginia down to the Democrats. This, we think, is claiming more than the facts warrant. West Virginia, Ohio, Pennsylvania and New York we think will each give a Union majority, and the past shows that our Nevada friend is clearly wrong in claiming for the Democracy majorities in the States of California and Nevada. In our own State the Union party lost the election by being divided against itself on questions of a local character entirely, which cannot possibly be the case in the next Presidential election, where local matters will not figure, but the principles which have been steadily adhered to by the party for the past six years. The State of Nevada will be entitled to three votes in the electoral college, and no one, save those who are hopelessly wedded to the "lost cause" will claim *that* State for the Democracy. The *Register* places five of the late seceded States on the Republican side, which he could not avoid, from the indications lately shadowed by the vote of those States in the questions of Convention or no Convention. In this calculation is footed up for the Republican candidate for President one hundred and twenty-six, while it gives the Democracy the gratifying number of one hundred and forty-three. Suppose we put down Ohio where she properly belongs, to the Republicans, twenty-one votes, Nevada, which is as certain as any of the States already given the Union party, three votes; California, which no well-informed Democrat of our own State will claim, three votes; Pennsylvania, for argument sake, we will set down as doubtful, twenty-six votes. This will give the Republican candidate one hundred and fifty-three votes, the Democrats ninety, with twenty-six doubtful, and in the event that Pennsylvania should so far forget herself as to go Democratic, the Union party will still have a majority of electoral votes of twenty-seven, enough for all practical purposes. The exploded idea of going behind the acts of Congress in the matter of citizenship to the blacks of the South is a favorite one with all the latter-day writers of the Democratic stripe. They pretend to teach that the principles of their party require a cheerful obedience to the requirements of the Consti tution, and as soon as the law-making power of the nation enacts anything the least opposed to their chivalric ideas, counsel their followers to renounce all allegiance to the government they were so recently in *apparent* earnestness to support. There is a great deal of the old leaven of resistance in the Democracy that its leaders take no pains to hide now that the military rule is superseded by civil authority. Hundreds of men who gave a seeming adherence to the Government of the country during the existence of the war caused by the rebel lion, took the first occasion offered to again enunciate their opinions and sen timents in favor of the Democracy and the rebels. That these men are to be trusted to make laws for our people, we deny, and every effort should be made to keep them out of official positions. We hold that when laws are passed by the proper powers, it is the duty of every good citizen to obey those laws, not only himself, but it is his duty, as long as he receives protection from the Government under which he lives, to see that his neighbor renders a like obedience to the law. It is useless to ask whether the Democratic leaders have done this or not; every man in our State knows that the Democrats, as a party, have opposed every meausure inaugurated to suppress the rebellion and maintain the supremacy of the Government, and now that the patriots have succeeded in conquering a peace, these men who opposed their efforts are the first to ask that they be honored for their treason in their elevation to places of confidence and emolument. How supremely impudent!

PASSAGE AT ARMS.—On Monday evening, two young men, one named John Gould, and the other Charley, who pursues the tonsorial profession at Gold Run, got into a difficulty at the Golden Eagle saloon, when Gould, who had imbibed something less than two hundred of Walter Jonse' cocktails, became belligerent and accused Charley of abstracting a watch from his (Gould's) pocket; whereupon Charley knocked him down, and so ended the fight.

MUSIC AND SUPPER.—We are requested to state that there will be a supper given at the National Hotel in this place, by the friends of the Methodist Episcopal Church on Friday evening next, 8th inst. During the evening there will be vocal and instrumental music. Admission, fifty cents.

STARTLING AFFAIR AT MARIPOSA.—The subjoined account of the alleged murder by poison in Mariposa, appeared in the Stockton *Herald* of Monday last. The story appears to us to be highly colored and sensational, and calculated to prejudge the case of the accused before their defense is heard:

A most astounding affair has occurred in Mariposa county. James W. Seale, Esq., an old and prominent citizen of that place, died suddenly on the 30th of September last, as was supposed, of paralysis. Deceased was buried without a *post mortem* examination, although there were vague suspicions of foul play. The suspicions were so greatly strengthened by some things discovered after the burial, as to demand investigation. Some five days after the burial of Mr. Seale, the body was exhumed by the Coroner, and the stomach taken out by several members of the medical profession. The necessary chemical agents for analyzing the contents of the stomach not being accessible there, they were sent for to San Francisco. On their arrival Drs. Turner, Bedford and Smile, on Wednesday night last, proceeded to analyze the contents of the stomach, when prussic acid was found on four separate and distinct tests. This discovery so strongly confirmed the presumption that poison had been administered, that warrants were immediately issued for the arrest of the suspected parties, namely Seale's wife, who is only nineteen years of age, and Swaney, editor of the Mariposa *Gazette*. The evidence against these two was so strong that a letter, received yesterday in this city, states that the jury charged both with murder in the first degree, and they were sent to jail, no bail being admitted. Seale's wife gave him some Hamburg tea to drink, and a few minutes afterwards he was a dead man. A bottle that contained prussic acid was found in the privy of her residence. In the room of Swaney, was found a bill for prussic acid purchased in this city. Upon being questioned, Swaney acknowledged to having purchased prussic acid in Stockton, but said he intended to take it himself, but upon farther questioning, could not tell what disease he desired it for, and said he had dropped the bottle, but upon being taken to the place mentioned no bottle could be found. A short time since the wife of Swaney died suddenly, about ten days after child-birth, when she was considered in no danger, and grave suspicions are entertained regarding her death. An improper intimacy between Swaney and Mrs. Seale has long been suspected in Mariposa. It is now the intention to examine the body of Mrs. Swaney, to ascertain the cause of her death.

HOW A YANKEE DENTIST GOT HIS RIDES GRATIS.—Being a new beginner and not flush in funds, he proposed to the stage driver to fill his teeth and take it out in rides. Driver thought his teeth were all sound. "Let me see," said the dentist. "What! don't want attending to? Why look at these molars and the cuspades crowding!" "Go ahead!" said the driver, "and no cussing." After a due amount of filing and jabbing and mouth stretching, the grinders were pronounced all right. Some two years after driver had occasion to call upon another dentist, and referred to the teeth previously filled. "Didn't see any that had been filled—will look again." Another examination proved that the first performance had been a piece of fine acting, and the dentist had got his fides free gratis for nothing.

CHANGE.—The Napa *Register* is now published by the Register Printing Association. R. T. Montgomery, former publisher is now editor and business manager.

PROGRESS.—The Amador *Dispatch* now says the late war was "brought on by fanaticism in *both* parties."

COLLISION.—The schooner Union ran into the steamer Tulare, in Suisun Bay, on Thursday last. The Captain of the Tulare thinks witl. malice prepense.

AT LAST.—A treaty has been made with the Apaches. They agree to go on the same reservation with the Camanches. The Arrapahoes, too, will treat. The Cheyennes, however, still hold back. It now remains to be seen whether our gentle friend "Lo" will stick to his agreement. There may be a good time coming for the Arizona miners.

INDICTED FOR MURDER.—The Grand Jury have found a bill of indictmen against James H. Reynolds, Edward Ewald, Isaac Harrington, Patrick Ryan, John Doe Cooly, for shooting Peter Bradley, on the 9th of October last. The indictment charges them with shooting Bradley through the upper part of the left breast, through the left lung and through a branch of the pulmonary artery. Reynolds was brought before the Fifteenth District Court at 2 o'clock yesterday afternoon, under a writ of *Habeas Corpus*, to obtain a release on bail, but the hearing was continued until 1 P. M. to-day. Reynolds and Herrington were admitted to bail in the sum of $20,000 each—*Alta*, 2d.

A PAPER contains the following singular obituary: "My husband is no more. He did not wish to live longer, and if he had it would have made no difference for gout entered his stomach, and was soon followed by death. I shall marry the doctor who so kindly attended my late husband: I learned then to trust him. Soft rest the ashes of the departed one, whose wholesale liquor business I shall continue at the old stand."

MASONIC FUNERAL.—The funeral services of the late John Hartsell, at Red Dog, Nevada Co, on last Sabbath afternoon, were numerously attended. The Masonic Fraternity, of which the deceased was a member, conducted the ceremonies. The Fraternity was represented by brethren from nearly every lodge in Nevada and Placer counties. The order of Good Templars, of which the deceas d was also a member, also assembled from the various lodges in the two counties, and joined the procession, while nearly the entire population of the two towns of You Bet and Red Dog took part in the solemnities of the occasion. The funeral oration was delivered at the Hall of the Good Templars, at You Bet, by Rev. J. E. Benton; after which the remains were borne to Red Dog, and deposited with Masonic ceremonies, impressively conducted by Past Master William A. Begole, assisted by Rev. J. E. Benton.

ABOUT COME.—After many and various indications the elements on yesterday let themselves out in an old fashioned blow, which was shortly afterward succeeded by a copious shower of rain, which continued up to the time of our going to press, and appears to be a settled thing for weeks to come. We are glad to see it, and hope it may continue sufficiently long to enable our miners to resume active operations. The time has about arrived when business of every description in our town needs the healthful and reviving influence of a few dollars.

THOSE of our citizens who need warm substantial clothing for the coming Winter, cannot do better than call on Mr. Lakamp, who is receiving a carefully selected stock of gentlemen's wear of every description, which he says he will sell at prices that cannot fail to satisfy his customers. Give him a call and examine his goods.

DURCH FLAT ENQUIRER.

"SPIRITUAL GAMMONOLOGY."—The Detroit *Free Press* has the following:

THE CROWNING FEAT OF ALL.—Dr. Von Vleck, the gammonologist, performed, during his stay at Merrill Hall, some wonderful feats; but his most surprising performance was his mysterious disappearance act, in which he exhibited rare proficiency, having made himself suddenly invisible to numerous Detroit creditors. The doctor promised to explain all his tricks after their performance. We fear he will not volunteer an explanation of this last.

That wide-awake people always keep their eyes open, and "what's more," if you don't, keep *your* eyes open, they'll open them for you.

S.T-1860-X

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life. REV. W. H. WAGGONER, Madrid, N. Y.

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy frend. ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me. REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect. G. W. D. ANDREWS, Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT, STIFF AND WEAK JOINTS, BURNS, BRUISES, EAR ACHE, SPRAINS, SWELLINGS, FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Sold by all Druggists and Stores in every town and mining camp on Pacific coast.

REDINGTON & O.S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

RACHAEL IN SEARCH OF A LOVER.—About two years ago, a young and beautiful lady, while riding in the cars from Hartford to Forestville, in the State of Connecticut, met with a young man who during the ride made her acquaintance, and on arriving at her destination, told her he was going to California, and would be pleased to correspond with her. She was of a romantic disposition, and the idea of corresponding with a handsome young man who was seeking a fortune in the golden valleys of California was something that was eminently pleasing to her, and she agreed to write to him often. Arriving in New York he wrote to her, and she replied by sending him a letter to San Francisco. The correspondence was kept up for a year or more, and as is customary when young men write to young ladies, it became very endearing, and many tender lines, laden with love's messages, passed between them. But all at once he failed to answer her letters, and she began to wonder what was the matter. Time rolled on, and eight months scored themselves upon the cheeks of the anxious maiden, who grew more and more restless, and finally determined to come to California in search of her lover. Obtaining the necessary funds, she started on her Quixotic errand, and arrived in California some four months ago, and took lodgings in a private boarding house inserted advertisements in the papers, telling "George" that somebody was waiting for him: but "George" did not respond, and as day after day passed away, she grew thin and lost her appetite. Her only conversation was about the absent one, and her chances of finding him. This so preyed upon her that her mind gradually gave way, and she was yesterday examined by a committee of physicians on a charge of insanity. She imagines that there is a conspiracy amongst the people to prevent her from finding "George," and that spies are watching her and telegraphing her every thought to Connecticut, and publishing them in the papers. It is a bad case, illustrating the dangers of correspondence with hastily-formed acquaintance, and while we pity the unfortunate woman, we cannot but think that her own foolishness is the real cause of her insanity. Proper treatment will doubtless cure her, and cause her to forget the person who trifled with her affections, and who would probably be unworthy of a true woman's love if he was found.—*Call.*

AN ACCOMMODATING YOUNG MAN.—A little incident, says the Hartford *Courant*, occurred lately in one of the cars of the Hartford and New Haven Railroad, which gave a gratifying proof of the deference paid by young men to the wishes of the ladies, and their readiness to supply a want as soon as it becomes known. The car in question was nearly filled as cars are apt to be in this day of travel. Its floor, near the door, was covered with tobacco juice, as, alas, floors are apt to be in this day when the use of the vile weed so much prevails. At one of the way stations a well dressed lady entered the car, looking with unconcealed disgust at the pools of yellow and slimy juice on the floor, then raised her dress slightly and picked her way across. The only vacant sitting in the car was on a seat occupied in part by a young man, who at once made room for the lady by his side. As soon as she was seated, with a look of relief, mingled with one of solicitude, the lady asked of her seatmate: "Do you chew tobacco?" "No, ma'm," was the reply, "but I can get you a chaw if you like." The look of disgust again crept over the lady's face, while those sitting by smiled audibly.

A FUNNY SCENE.—An unexpected tableau was given lately in the New York French theater, where Mrs. Lander is playing Elizabeth. The audience had been in the habit of demanding a repetition at the close of the tableau of the drama, but the night in question it was supposed the house had emptied itself without the encore. It seems it had not, however, and the curtain rose suddenly, discovering the Queen of England restored to perfect health, sitting upon her cushions and talking glibly with Essex, who had survived his decapitation, and was standing there very complacently, with a cigar in his mouth, and a cotton umbrella under his arm. Burleigh, the venerable Prime Minister had removed his wig and was drinking a glass of lager beer, while Lady Howard was waltzing with Sir Francis Drake, to the regular puffs of her (historic) husband's cigar. The house burst into a fit of laughter, and the curtain fell again, to the amusement of the audience and the confusion of the actors.

RETURNING FROM THE Harvest:—The *Enterprise* says: "The noble red men of the sagebrush are gradually returning from the pine-nut harvest. On the backs of big eyed and hungry-looking ponies, or squaw-back and on foot, the ragged, straggling files wind in along the giddy mountain trails, all as chatty and as happy as ever, if no fatter or richer. They bring but small store of nuts with them, and tackle white man's grub with appetites that appear to have lost nothing of their sharpness by their absence in the pine-nut orchards. If they have not secured a very bountiful harvest in nuts, many of them, particularly the squaws, have acquired a most bountiful coating of pine gum, and were they thrown against the side of a house would stick until melted loose. Our wood-choppers are making sad inroads upon the sacred pine-nut orchards of the Piutes, and dark are the scowls of the braves and ancient squaws, as they look down into the valleys and behold the destruction of their favorite groves. But they are obliged to grin and bear it, and console themselves by begging more persistently than ever for "bistick."

The neatest "waterfall" worn by the cleanliest woman after three days wear, acquires an unhealthy, musty smell—a kind of bilge water odor.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price $5 with full directions on each Box. Sent by mail or express.

Address CHAS H. TOZER, M. D., San Francisco, Cal., or Lock Box, 1884. Consulta Free. All communications strictly confidential.
